

PDF reader verification sample

Page 1: selectable prose, columns and a numeric table.

The experiment code is ORCHID-739.

LEFT COLUMN START

The control group used 24 samples.

The measured temperature was 18 C.

LEFT COLUMN END

RIGHT COLUMN START

The treatment group used 36 samples.

The measured temperature was 21 C.

RIGHT COLUMN END

Group	Samples	Score
Control	24	63.5
Treatment	36	81.2

Expected score difference: 17.7 points.

Scanned laboratory note

Document code: COBALT-582

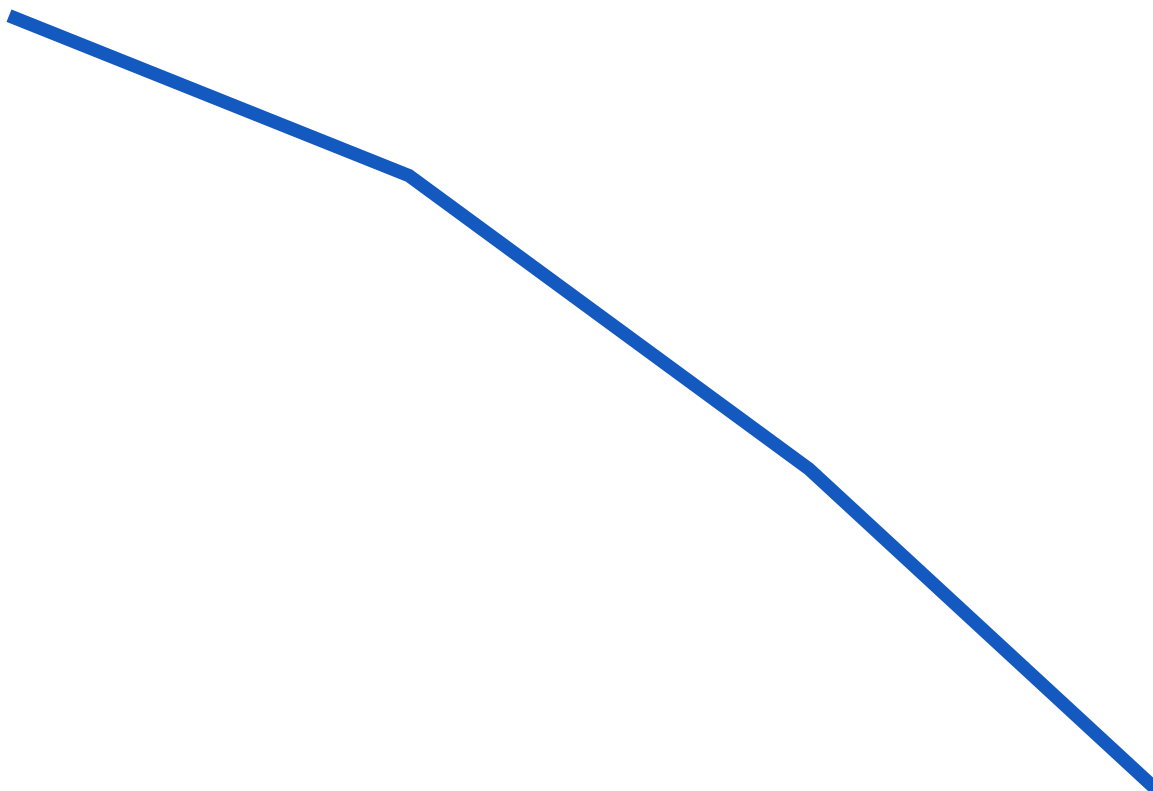

Sample count: 47

Final mass: 12.75 grams

The control specimen was blue.

Visual-only evidence

The blue series decreases across the observation period.

A red square is bottom-left; a blue square is bottom-right.
